

Little Stars Newsletter w/c 7th October

Hello everyone,

This week we have been learning all about Autumn and looking at all the different colours. They have been using lots of musical instruments and talking about the sounds they can hear. We have been practising our counting in a line and looking at the new mark where we drive across to make a straight line. Next week we will be continuing the story of 'Red Rockets and Rainbow Jelly.' It has really got our children talking about what they like and dislike!

We will be:

- Continuing to talk about Autumn and exploring outside to make dens and patterns using natural materials.
- Explore leaves big and small!
- Drawing trees using our new lines down and across.
- Continue to draw our faces after looking in the mirror and talking about what we look like.
- Exploring jelly in our water tray!
- Mixing up colours using the paints.
- Talking about loud and quiet sounds inside and outside. .
- Continue to count out amounts and learning that the last number tells you how many there are.
- Acting out emotions to try and match them up.

Important date for your diary:

Tuesday 15th October is parents evening. The office will soon be sending out invites with a time slot but in the meantime please keep this date after school free if possible!

Take care,
The Little Stars Team
