

Pupil Questionnaire 2017

Positives!

We do lots of fun modelling stuff with boxes at school. I love all of the teachers in school, they are the best teachers in the whole wide world.

It is fun

It's the greatest school that anyone can ever go to

Teachers are nice, kind and helpful.

All the teachers are really kind.

My friends really are kind to me at school and we know what to do if someone is upset.

Thank you to all of the teachers

What you said	What we did
Could we please have a class monitor and class head boy/girl	The new house system has meant we now have house captains, we also have class ambassadors, school parliament, eco team and playgrounds buddies, lots of opportunities for children to take responsibility
I don't like curry or hot pot school dinners	We have reviewed the school menu with the children and chosen to most popular preferences
I would like some extra time on the laptops :) I would like some more choosing time - to choose which game to play on the iPads :)	IT is one of our priority this year and we have lots of new equipment, staff and pupil training and new software – watch this space!
Please make the playground better	We are currently fundraising for this and plan to develop the playground bit by bit
Can we have Spanish again?	We had to stop Spanish when our teacher left and the budget has meant we are unable to offer this in school time. We did offer a Spanish after school club but the take up was low. If any additional funds become available we will certainly look into this!
We work too hard!	We are developing our curriculum to ensure they are lots of play based opportunities in KS1 through the development of continuous provision. Feedback from the children about this is very positive. We do have high expectations for all the children to be the best they can!
